### **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 29, 2005 has been entered.

### ***Double Patenting***

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply *with* 37 CFR 3.73(b).

3. Claims 11, 13, and 32 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 11-12 of U.S. Patent Application No. 10/047,025. Although the conflicting claims are not identical, they are not patentably distinct from each other because the limitations of

Art Unit: 2613

claims 11, 13, and 32 of the present application are included in the claims 11-12 of the cited patent.

Therefore, it is considered obvious that one skilled in the art at the time of the invention having US Patent Application no. 10/047,025 would have had no difficulty to modify the conditions set in claims 11-12 of the cited patent in order to derive the limitations of claims 11, 13, and 32 of the present application for the same purpose of providing an endoscopic imaging system making it possible to detachably attach an expansion unit.

4. Claims 11, 13, and 32 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 11-12 of U.S. Patent Application No. 10/046,830. Although the conflicting claims are not identical, they are not patentably distinct from each other because the limitations of claims 11, 13, and 32 of the present application are included in the claims 11-12 of the cited patent.

Therefore, it is considered obvious that one skilled in the art at the time of the invention having US Patent Application no. 10/046,830 would have had no difficulty to modify the conditions set in claims 11-12 of the cited patent in order to derive the limitations of claims 11, 13, and 32 of the present application for the same purpose of providing an endoscopic imaging system making it possible to detachably attach an expansion unit.
